1. Narrative Questions

Make sure to answer each question descriptively and with detailed language. When appropriate, provide specific examples. Note that you cannot use formatting (bullet points, underlining) when you cut and paste your answers into the online form. You may, however, begin a new block paragraph, or use capital letters to highlight a new section. This may help the panel to read in some instances, but don't overdo it.

Please respond to the following questions. Each response is weighted equally. Refer to the FAQs for details.

1. **How does your organization fulfill its mission? Include details about the organization's programs. How do your organization's goals for the 2017/2018 year support the organization's mission?** (450 word count limit)
2. **How does your organization serve the public at large, AND/OR improve the quality of life in Tucson, through its arts programs?** (450 word count limit)
3. **Describe the core audience that attends your organization's events. How does your organization reach out beyond its primary audience through its programming?** (450 word count limit)

2. Budget – DataArts Funder Report and Compensation Report

Previously known as the Cultural Data Plan, DataArts will generate a Funder Report for your organization that helps give the panel an understanding of the financial health and management of your organization. Make sure you generate a Funder Report specifically for the Arts Foundation.

- Upload your **Funder Report** as a single PDF File
- If the Expense Pie Chart in your Organization Summary section of your Funder Report shows your "G&A" (General and Administration) allocation of 30% or more, for either fiscal year, you **must** attach a one page Compensation Report
- **Compensation Report:** On one page, report a list of your organization's top 3 compensated individuals, their compensation, and their titles and/or general duties

3. Budget Overview and Notes

As much information and transparency as you can provide will be beneficial to the panelists as they review your application. This is your opportunity to bring your Funder Report to life, as if you were explaining it to the review panel. If you don't utilize this chance to clarify aspects of your organization's budget, the panelists may be confused or take away the wrong impression regarding your financial state.

- **Budget Overview:** Provide a brief overview of your organization's current financial status (1/4 page maximum space)
- **Budget Notes:** Below the overview, enter budget notes
 - Include the Budget heading, line item number, and explanation with notes for the following
 - For any variance of 15% or more

- Any variance you think may require explanation (even if it is less than 15%)
- Variances default to “n/a” if you only entered numbers in one FY column – in such a case, you **MUST** provide budget notes to explain this line item

4. Support Materials

All supporting materials listed below are required. The application will be considered incomplete and will be disqualified if any of the materials below are missing.

- A **one-page biography or resume** of the key person(s) responsible for the artistic growth and for the management of the organization that includes their qualifications, background, and experience
 - Upload as a PDF, .doc, or .docx
- A **list of current board members** indicating their ethnicity, occupation, and the number of years each has served on your board
 - Please spell out ethnicities, do not abbreviate
 - Upload as PDF, .doc, or .docx
- **Evidence of your organization’s 501c3 status**
 - Upload as PDF, .doc, or .docx
- **Additional support materials** should help support your Narrative – provide a link to your organization’s website (should you have one), and up to two more items that are promotional materials, press, work samples, and/or website links
 - It is advisable to have at least one quality video or image of an event your organization presented that helps support your narrative – upload as PDF, .jpg, or specific URL links

5. Government Data Collection

This section is mandatory, but is not viewed by panelists. In order to help us fulfill our government data gathering obligations, provide your organization’s estimated numbers for the areas below to reflect the 2016-2017 fiscal year. **Do not** provide percentages.

This year we ask that you use the following data prompts to create your own document offline. Cut and paste the following information to a document and complete it, then upload this to the online application as a PDF, .doc, or .docx file.

FAQs & Appendix

For Narrative

Narrative Question #2

- ***How do I effectively describe how our organization serves the public at large, AND/OR improve the quality of life in Tucson, through its arts programs?***
 - This is an AND/OR question; you can respond either in terms of “service” or “improves quality of life” through your organization’s art programming. Be specific and give examples of how your organization accomplishes this.
- ***What is “Quality of Life”?***
 - Quality-of-life seems intangible, but is made from the things that enhance the livability of a community. These may include civic and social well-being, an improved sense of safety, transformations in thinking and perception, cultural vitality, a greater sense of place, a sense of belonging, etc. In your narrative, you can describe how your art programs help improve these components, and in turn, the quality of life in Tucson.

Narrative Question #3

- ***Why do you ask me to describe the core audience that attends our organization’s events? Why do you ask me to describe how my organization reaches out beyond its primary audience through its programming?***
 - As stewards of public funds, The Arts Foundation has an obligation to support arts and cultural programming for our diverse population. Therefore, it is part of The Arts Foundation’s mandate to ensure that the organizations that receive public funding reflect that obligation. Because of the city’s limited public funding, it is even more imperative that we are diligent in ensuring public funds have the greatest impact on the city’s diverse population.
 - Please describe your core audience, defined as the people who currently attend or participate with your programming. Be specific. You may include data for you have actually served and, including demographics regarding ethnicity, age, gender, cultural and economic characteristics, geography, etc.)
 - Next, describe what you are doing to understand the barriers you might face to diversify your core audience. Be specific in how are you attempting to address these barriers through your programming (this may include new strategies to reach new audiences, such as partnering with local community groups, providing affordable admission prices, and may also include strategies to increase diversifying your board and/or staff, etc.) Provide evidence that you have begun to reach a more diverse audience.

For Budget and Compensation Report

DataArts Funder Report

- ***How do I generate a DataArts Funder Report for the Arts Foundation?***
 - You will create the Arts Foundation Funder Report using DataArts (formerly the Cultural Data Project, CDP). If you need assistance generating this report, please **call** the help desk at DataArts. This is quickest way to get a response.
 - **Phone: (877) 707-3282**
 - <http://www.culturaldata.org>

Compensation Report

- ***Do I need to create a GOS Compensation Report? If so, how do I do that?***
 - Refer to the pie chart in your Organization Summary section in your Data Arts Funder Report. If the pie chart shows “G&A” (General and Administration) allocation of 30% or more (for either fiscal year) you must attach a one page report that lists your organization’s top 3 compensated individuals. Use the following format:
 - List as “Individual #1”, “#2,” or “#3” (please do not list actual names)
 - The Individual’s total dollar compensation (as reflected by your organization’s Form W-2 or Form 1099, or other compensation reporting to the IRS)
 - The Individual’s status (employee, contractor, board member or other status at the time of compensation)
 - That individual’s title(s) and/or general duties, and approximate % of their total time spent for each duty, totaling 100%

Example Compensation Report

For Budget Overview and Notes

The Budget Overview and Notes provide the panel with a clearer picture of the overall financial health of your organization. The panel pays careful attention to your Funder Report and this additional information you provide is helpful. If you have specific questions on how to read the numbers on your Funder Report, contact DataArts directly at their help desk at 877-707-3282, or at info@culturaldata.org.

Budget Overview

- **How do I create a successful Budget Overview?**
 - This is a brief narrative about your organization’s current financial status, up to ¼ page in length. Give context for what the panelists are seeing in your Funder Report.

 - Any variance 15% or more
 - Any variance that might require explanation
 - Variances default to “n/a” if you only entered numbers in one FY column. In such a case you **must** provide budget notes to explain this line item
 - Examples of variances may include, but are not limited to: increases/reductions in total expenses, debt, endowment, working capital, etc.

We have also hired a full-time Development Director which is reflected in Staff & Non-Staff Statistics. [etc.]

Budget Notes

Revenue – Earned

For Panel Review Process

The Panel reviews all material online at least two weeks prior to panel meetings. The makeup of a panel consists of a minimum of one The Arts Foundation grants committee member, one The Arts Foundation board member and up to five civic community panelists. The Arts Foundation Grants Program Coordinator is the

facilitator at the panel meeting and reports on its proceedings as needed to The Arts Foundation grants committee.

The Arts Foundation reserves the right for the panel to make an initial online “gated” selection. This means that while all applications are scored and all receive panelist comments, some may not move on to live panel. You will be notified if your application has moved on or not to live panel.

Each application is scored by individual panelists according to the criteria listed in the guidelines. The final score is an average of the individual scores. The panel comments represent a consensus of the panelists’ review and discussion and do not express the opinion of any individual panelist. There may, in fact, be opposing views expressed within the comments.

All Grant Review Panel members **must** declare any conflict of interest and will not participate in discussions or scoring of any programs presenting a conflict.

The GOS Panels are open to the public. Applicants are welcome and encouraged to attend the panel deliberations.

For Appeals Process

The Arts Foundation Grants Committee will hear appeals from grant applicants upon written request within 21 calendar days after the date of the notification letter. An appeal will be considered only if the applicant can demonstrate that:

- There was an undisclosed conflict of interest on the part of a panel member; *or*
- A clerical mistake was made in the computation of panel scoring criteria; *or*
- Review criteria other than the criteria published in the grant guidelines were a major part of the decision

Disagreement with panel ranking or comments does not constitute grounds for an appeal.

In such a case, it is up to staff to may assess if your organization must forfeit its award, and your organization remains ineligible for future funding from the Arts Foundation until it is within eligible status. Failure to report any significant changes automatically requires you to forfeit your award and renders you ineligible for future funding from the Arts Foundation until it is within eligible status.
